Through the state's membership in the Nurse Licensure Compact (NLC), Kansas Board of Nursing will offer a multistate license to eligible residents of Kansas **after July 1, 2019**. Non-residents are not eligible for a Kansas multistate license. The NLC includes uniform licensure requirements, which pertain to the issuance of a multistate license. This includes meeting the licensure requirements of the applicant's home state.

Existing Kansas residents who hold a Kansas license:

To obtain a multistate license, the nurse will need to complete the application for a multistate license following the **July 1, 2019 implementation date**. The application will be posted on the Kansas Board of Nursing website. The Board of Nursing will evaluate the application to see if the applicant meets the requirements listed below. An applicant who does not meet one or more requirement is ineligible for a multistate license and may be limited to a single state license.

For Kansas residents who do not hold a Kansas license:

If the applicant holds an active license in another state, the applicant should complete the application for license by endorsement. The applicant will be assessed for a multistate license.

If the applicant is a new graduate, the applicant should complete the application for license by examination. The applicant will be assessed for a multistate license.

An applicant who does not meet one or more requirement is ineligible for a multistate license and may be issued a single state license at the discretion of the board of nursing.

List of Eligibility Requirements to Obtain a Multistate License:

1. Meets the requirements for licensure in the home state (state of residency);
2. a. Has graduated from a board-approved education program; or
b. Has graduated from an international education program (approved by the authorized accrediting body in the applicable country and verified by an independent credentials review agency);
3. Has passed an English proficiency examination (applies to graduates of an international education program not taught in English or if English is not the individual's native language);
4. Has passed an NCLEX-RN® or NCLEX-PN® Examination or predecessor exam;
5. Is eligible for or holds an active, unencumbered license (i.e., without active discipline);
6. Has submitted to state and federal fingerprint-based criminal background checks;
7. Has no state or federal felony convictions;
8. Has no misdemeanor convictions related to the practice of nursing (determined on a case-by-case basis);
9. Is not currently a participant in an alternative program;
10. Is required to self-disclose current participation in an alternative program; and
11. Has a valid United States Social Security number.

For more information, contact Kansas Board of Nursing at 785-296-4929.

Kansas State Board of Nursing

NURSING EDUCATION SPECIALIST

Are you a nurse with administrative level skills and a passion for serving the public?

The Kansas Board of Nursing, located in Topeka, KS, is seeking a Nursing Education Specialist. This position will implement evaluation criteria and monitor procedures for continuing education programs. Duties will also include responding to inquiries, providing consultation, and conducting survey visits. The Nursing Education Specialist will also attend meetings as a staff liaison; and analyze and present reports to the Education Committee and Board. Travel is required at times to conduct surveys of nursing schools.

Educational Qualifications: Minimal academic preparation is a Master's Degree in Nursing from an accredited university or college with equivalent administrative experience.

Professional Qualifications: A current, or eligible for, an unencumbered Kansas Registered Nurse license. Two years' experience in nursing education and administration is preferred.

For a complete position description and application information please visit www.ksbn.org. To apply, a Cover letter, Resume, State of Kansas Employment Application and Kansas Tax Clearance must be submitted to **Attention: Vicki Harding BdofNursingApps@ks.gov**

Equal Opportunity Employer

Reflections on a nursing career...

This letter and nursing pin were delivered to the Kansas State Board of Nursing. It is a beautiful reflection of the value of Helen's nursing career to her. The nursing pin is the seal of the "Kansas University" with the Red Cross superimposed on it. Until the early 70s each graduate's name and year of graduation was engraved on the back.

KSBN COMMITTEE REPORTS

March 2018 Education Committee

The Education Committee met March 27, 2018 and was called to order by Patsy Zeller, MSN, APRN, FNP, Chair at 8:30 a.m. in Room 509 of the Landon State Office Building. The minutes from December 12, 2017 were approved.

The site visit report from Labette CC PN Program was reviewed. It was moved to accept the site visit report for Labette CC PN program with recommendations and to reapprove the program for a period of five years.

The site visit report from Pratt CC PN Program was reviewed. It was moved to accept the site visit report for Pratt CC PN program with recommendations and to reapprove the program for a period of five years.

The site visit report from Pratt CC ADN Program was reviewed. It was moved to accept the site visit report for Pratt CC ADN program with recommendations and to reapprove the ADN program under conditional approval with the next site visit to take place in the fall of 2020.

The site visit report from Neosho CCC PN Program was reviewed. It was moved to accept the site visit report for Neosho CCC PN program with recommendations and to reapprove the program with a site visit in five years.

The site visit report from Neosho CCC ADN Program was reviewed. It was moved to accept the site visit report for Neosho CCC ADN program with recommendations and to approve the ADN Program with a site visit to occur at the time of national accreditation site visit.

The following schools presented major curriculum changes:

- University of Kansas DNP Program
- Wichita State University BSN Program
- Kansas City Kansas Community College ADN Program
- Donnelly College PN Program
- Pratt Community College ADN Program

It was moved to accept the LPN Refresher Course from South Dakota State University.

Site visit schedules were reviewed. Miriah Kidwell will email committee members requesting assistance with site visits, if needed.

Geri Tyrell, DNP, RN and Pat Plank, MSN, RN gave an update on the Kansas Military Nursing Articulation Initiative. The PN group met and identified the biggest discrepancy between the military medic types of programs and the nursing PN programs is that the military medic training doesn't meet the nursing content. The ADN and BSN programs have identified areas primarily in health assessment and fundamental skills course that needs to be addressed.

Ten petitions for permission to test/retest were reviewed and action taken.

The meeting was adjourned at 10:22 am.

KSBN COMMITTEE REPORTS

March 2018 APRN Committee

The APRN Committee met March 27, 2018 and was called to order by Carol Bragdon, PhD, APRN, Chair at 1:30 pm in Room 509 of the Landon State Office Building. Minutes from December 12, 2017 were approved.

Bobbe Mansfield, DNP, FNP-BC reported on the Prescription Monitoring Program Committee. The following are topics of discussion in the committee presently: 1) KTRACS is becoming available as an imbedded element in electronic medical records; 2) what data should be collected and what benchmark should be sent to identify users both on the patient side and excessive prescriber's side; 3) what to do with the data that has been collected and 4) developing a peer review criterion for identifying a problem.

It was moved to approve the following out of state schools and their courses:

- Allen College – Family NP
- Boston College – Women's Health NP
- Saint Francis Medical Center College of Nursing – Neonatal NP
- University of Colorado – Adult/Gero NP
- University of St. Francis – Family NP
- Western Kentucky University – Psychiatric/Mental Health NP
- Wright State University – Family NP

Cara Busenhart, PhD, CNM, APRN, reported the Nurse Midwife Council met last in early November. Regulations went to the full Board of Healing Arts on December 8, 2017 and were approved. Some of the Nurse Midwife Council concerns are dual regulation of a split scope of practice, creation of a new unrecognized credential (CNM-I) and non-adherence to national standards of practice for Certified Nurse Midwives. It was the consensus of the APRN Committee to decline the current regulations and refer them back to the Board of Healing Arts for consideration of nationally recognized standards of practice.

There was preliminary discussion about the APRN Consensus Model. This model defines APRN practice and the four areas of regulation: licensure, accreditation, certification and education (LACE). The APRN regulatory model consists of four roles of APRN: registered nurse anesthetist (CRNA), clinical nurse specialist (CNS), certified nurse-midwives (CNM) and certified nurse practitioners (CNP). Within each role, APRNs are

educated in one of six population foci: neonatal, psych/mental health, pediatrics, women's health/gender-related and adult-gerontology. Formal APRN education consists of a graduate degree from an accredited academic institution, which prepares the graduate in one of the four roles and at least one population foci. It also must include a minimum of a course in each of the following: advanced physiology/pathology, advanced health assessment and advanced pharmacology. APRN education also includes clinical and didactic courses that prepare the graduate to practice in the APRN role.

Any certification program must follow established certification testing, psychometrics and standards. The testing must assess for the role/population foci competencies and be accredited by a national certification accreditation body.

Licensure is another component of the APRN Consensus Model. Boards of Nursing would licensure APRNs in one of the four roles. Licensure in the APRN Consensus Model is licensure as an independent practitioner with no regulatory requirements for collaboration, direction or supervision. With the APRN Consensus Model, the Board of Nursing would be solely responsible for licensing of APRNs. The APRN Consensus Model includes grandfathering for APRNs already licensed and practicing. The APRN Compact is a licensure compact that would allow APRNs to have one multi-state license, with the ability to practice in their home state and other compact states. Eighteen states have fully implemented the APRN Consensus model language. Three states have passed the APRN Compact language.

The meeting was adjourned at 2:19 pm.

Practice Committee

The Practice Committee met on Tuesday March 27, 2018. It was called to order at 3:02 pm. The Committee reviewed and approved the December 2017 minutes. An update was given on the Pharmacy Board regulations pertaining to epinephrine kits to be stocked in schools. Those regulations are now in process for consideration with an estimated completion time of six months. There was a discussion about exploring new language of diagnosis in the context of Advance Practice for a future statutory amendment.

Investigative Committee

The Investigative Committee meeting for Monday March 26, 2018 was called to order at 9:00 am. Minutes for the December 2017 meeting were read and approved. The second draft of the Policy and Procedure regarding referral of cases with potential criminal activity was reviewed and approved. Michelle David, Assistant Attorney General presented guidelines from the Attorney General on cases that his office wants referred for review. A total of 210 cases were reviewed and disposed of by the Committee members.

Kansas Announces Statewide Integration of Prescription Drug Monitoring Program

Adding K-TRACS Data to Electronic Health Records and Pharmacy Management Systems

The Kansas State Board of Pharmacy (Board), in conjunction with the Kansas Department of Health and Environment (KDHE), is pleased to announce a new partnership with Appriss Health to provide interoperability services for all prescribers and pharmacists in Kansas to access K-TRACS, the Kansas Prescription Drug Monitoring Program, through the PDMP Gateway®. "This is an opportunity for Kansas to deliver a more efficient and patient-oriented prescription drug monitoring program," said KDHE Secretary Susan Mosier, MD, MBA, FACS. "Integrating a patient's controlled substance prescription data into the electronic health record helps providers treat that patient."

The project is funded by a grant from the Centers for Disease Control awarded to the Kansas Department of Health and Environment. "Grant funds will support Gateway® connection costs for each Kansas electronic health records and pharmacy management system approved for integration," said Board Executive Secretary Alexandra Blasi. "This multiagency collaboration furthers the K-TRACS mission to prevent diversion, misuse

and abuse of controlled substances in Kansas, while protecting legitimate medical use."

The Board successfully piloted electronic medical/health records integration a few years ago, enabling a single sign-on for access to a patient's medical record and prescription history. The Board will begin to model this integration statewide which will increase availability, ease of access, and use of a patient's controlled substance prescription history for making critical and informed prescribing and dispensing decisions. Currently, prescribers and pharmacists log in to separate systems to query patient data which takes valuable time away from patient care and interaction. This integration simplifies the process by creating a one-stop-shop, making K-TRACS data directly available in the patient's electronic record.

For more information and to request integration, please visit <http://pharmacy.ks.gov/k-tracs/k-tracs-statewide-integration>. Integrations must be approved by the Board and will require reporting to the Board regarding such connections.

ADDRESS CHANGE

Kansas State Board of Nursing Launches Online Applications

Conveniently manage your nursing licenses online

The week of October 10th the Kansas State Board of Nursing (KSBN) launched their online Kansas Nursing License Portal. The portal is designed to give applicants the ability to apply and pay for their license(s) from the convenience of their home—24 hours a day, seven days a week. The service is available for all professions except mental health technicians.

The goal of the Kansas State Board of Nursing is to provide applicants a more efficient and convenient way to apply for their license. KSBN is very proud to offer this service.

The Online Kansas Nursing License Portal ties into KSBN's current licensing system with its partnership with Systems Automation Corporation, a state government licensing system provider. It allows the user to apply for a Kansas nursing license, verify information, and manage changes to their license electronically. Through its partnership with the Information Network of Kansas, Inc., KSBN's online Kansas Nursing License Portal also allows applicants to securely pay for online services via electronic check or credit card.

To apply for nursing licensure you must have access to the Internet and a checking account or credit card. Applicants who apply online do not have to mail in the license application.

You can visit the Kansas Nursing License Portal www.ksbn.org.

KNAP

Kansas Nurse Assistance Program

What is KNAP?

KNAP is a professional assistance program designed to assist all nurses and mental health technicians who have a problem or illness that has or could impair their ability to practice safely.

The Goal of KNAP

Mental and physical illness, including alcohol and other drug addiction, can potentially impair practice and health. We estimate that at any given time, approximately 10% of the population is affected. This same percentage is thought to be true of healthcare professionals.

Alcohol and other drug addiction, as well as mental and physical illnesses, are treatable. KNAP works with the program participants to obtain an evaluation, treatment (if indicated), and monitoring throughout the recovery process.

Referrals

Self-referrals to the program are encouraged, but referrals may be made by a family member, a friend, employer or anyone concerned about the nurse/LMHT.

Anonymous referrals are not accepted. A person may call for information or advice without giving their name, however. Referrals may be made by calling 913-236-7575.

KNAP Providers

- Confidential services to Kansas RNs, LPNs, and LMHTs experiencing problems and illnesses which could lead to impaired practice.
- Interventions, assessments, referrals for evaluation and treatment (if indicated.)
- On-going monitoring through random urine drug screens, contact with employers and monthly groups.

Causes for Concern

Job Function

- Narcotics discrepancies, e.g.: incorrect counts, alteration of narcotic containers, increased patient reports of ineffective pain control, discrepancies on records or frequent corrections of records, unusual amounts of narcotics wasted, significant variations in the quantity of narcotics ordered for technician's unit or shift.
- Fluctuations in the quality of work performance.
- Irresponsible behavior from someone previously conscientious and responsible.
- Requests to work shifts that are the least supervised.
- Inordinate interest in patients' pain control medications.

Behavior

- Increasing isolation from colleagues, friends and family and avoiding social activities.
- Complaints from others about work performance or alcohol or drug use.
- Mood swings, irritability or depression, or suicide threats or attempts, perhaps caused by accidental overdose.

Physical Symptoms

- Obvious intoxication such as swaying, staggering or slurred speech.
- Odor of alcohol on breath or the excessive use of breath-fresheners or perfume to disguise the odor of alcohol.

KNAP is supported by funds from the Board of Nursing and, in small part, by fees charged to the participants.

Kansas State Board of Nursing Joins Nursys

We are pleased to announce that verifications of licensure to another state will now be achieved by a more secure and electronic process! Beginning May 12, 2017 this process will facilitate the turnaround for licensure verification to be sent to a state of your choice via Nursys®.

Nursys® is the only national database for licensure verification for registered nurses (RNs), licensed practical/vocational nurses (LPNs) and advanced practice registered nurses (APRNs). Nursys® is designated as a primary source equivalent database through a written agreement with participating boards of nursing. Nursys® is live and dynamic, and all updates to the system are reflected immediately, pushed directly from participating board of nursing databases through frequent, secured data updates. Nursys®, a 24/7 nationwide database for verification of nurse licensure and discipline, will make licensure verification **immediately** available to the board of nursing where an individual is applying for licensure.

National Council of State Boards of Nursing (NCSBN) provides automatic license status quickly, easily, securely and free of charge to individual nurses who enroll through Nursys e-Notify.

For questions regarding verifications or Nursys, including processing times, visit Nursys.com for instructions and an introductory video.

Health Facility Surveyor

Req #189358

Health Facility Surveyor (K0229861) in the Bureau of Community Health Systems

This position is largely responsible for triaging incoming complaints against non-long-term health care facilities and providers. The position will also assist in the Quality Assurance function for the program, mandated reporting to law enforcement agencies and other interested State agencies. The position will maintain complaint tracking data and communicate with the Regional Office of the Centers for Medicare and Medicaid Services regarding incoming complaints.

Incumbent is required to be a licensed RN, have and maintain a valid driver's license when operating a state vehicle, a private vehicle, or a rental vehicle for the benefit of the State.

Salary:

\$25.51 hourly; can vary depending upon experience and qualifications.

ATTENTION:
Advanced Practice Registered Nurses (APRNs)

WHEN WE PUT PATIENTS FIRST, WE ALL WIN.

IT'S TIME FOR KANSAS TO REMOVE PRACTICE BARRIERS
 for ALL APRNs, a **RECOMMENDATION** of Institute of Medicine (IOM)
FUTURE OF NURSING report, 2010.

WHY?

- Access to health care across Kansas will improve:** Enables APRNs to fill gaps; help alleviate physician shortage
- Costs decreased:** Physician-signed contracts are burdensome/costly; some APRNs must pay high fees for a contract (collaborative agreement); No evidence contracts contribute to quality of care
- Collaboration remains and Cuts Red Tape:** 22 states have removed outdated regulations; Professional collaboration remains while APRNs work side by side with physicians; VA ruling-removed required physician-signature
- Evidence points to quality care & lower costs:** APRNs are safe and effective as autonomous providers within their scope & training
- Supports community needs & increases providers:** Full practice will allow APRNs to practice where there is no physician (or willing physician) to sign a contract
- Studies show benefits of decreasing regulatory burdens:** saves money for consumers/the state; Gives patients a choice

IT'S TIME TO STAND UNITED FOR OUR FUTURE!

SUPPORT APRNs AND DONATE AND/OR JOIN
