Kansas Nurse Assistance Program

What is KNAP?

KNAP is a professional assistance program designed to assist all nurses and mental health technicians who have a problem or illness that has or could impair their ability to practice safely.

The Goal of KNAP

Mental and physical illness, including alcohol and other drug addiction, can potentially impair practice and health. We estimate that at any given time, approximately 10% of the population is affected. This same percentage is thought to be true of healthcare professionals.

Alcohol and other drug addiction, as well as mental and physical illnesses, are treatable. KNAP works with the program participants to

obtain an evaluation, treatment (if indicated), and monitoring throughout the recovery process.

Referrals

Self-referrals to the program are encouraged, but referrals may be made by a family member, a friend, employer or anyone concerned about the nurse/LMHT.

Anonymous referrals are not accepted. A person may call for information or advice without giving their name, however. Referrals may be made by calling 913-236-7575.

KNAP Providers

- Confidential services to Kansas RNs, LPNs, and LMHTs experiencing problems and illnesses which could lead to impaired practice.
- Interventions, assessments, referrals for evaluation and treatment (if indicated.)
- On-going monitoring through random urine drug screens, contact with employers and monthly groups.

Causes for Concern

Job Function

- Narcotics discrepancies, e.g.: incorrect counts, alteration of narcotic containers, increased patient reports of ineffective pain control, discrepancies on records or frequent corrections of records, unusual amounts of narcotics wasted, significant variations in the quantity of narcotics ordered for technician's unit or shift.

- Fluctuations in the quality of work performance.
- Irresponsible behavior from someone previously conscientious and responsible.
- Requests to work shifts that are the least supervised.
- Inordinate interest in patients' pain control medications.

Behavior

- Increasing isolation from colleagues, friends and family and avoiding social activities.
- Complaints from others about work performance or alcohol or drug use.
- Mood swings, irritability or depression, or suicide threats or attempts, perhaps caused by accidental overdose.

Physical Symptoms

- Obvious intoxication such as swaying, staggering or slurred speech.
- Odor of alcohol on breath or the excessive use of breath-fresheners or perfume to disguise the odor of alcohol.

KNAP is supported by funds from the Board of Nursing and, in small part, by fees charged to the participants.

House Bill 2064 Clarifies Professional Liability Insurance Requirements for NMWs and RNAs

Among the numerous insurance law amendments contained in HB2064 there is a section that clarifies definitions contained in the Health Care Provider Insurance Availability Act. Specifically, subsection (f) of K.S.A. 2014 Supplement 40-3401 is changed to clarify who is not required to purchase professional liability insurance and participate in the Health Care Stabilization Fund. You may recall that generally, advance practice nurses who are licensed to practice as nurse anesthetists or as nurse midwives are defined as health care providers in the Health Care Provider Insurance Availability Act and therefore, they are required to purchase professional liability insurance with limits covering at least \$200,000 per claim. They are also required to pay a premium surcharge for HCSF coverage in excess of \$200,000 per claim.

The exceptions from the normal professional liability insurance requirements are clarified in section seven of HB2064 to exempt any nurse anesthetist or nurse midwife who: (1) has an exempt license issued by the State Board of Nursing, (2) works exclusively for the federal government as an employee of a federal agency or on active duty military service, or (3) provides professional services as a charitable health care provider under an agreement with the Secretary of the Kansas Department of Health and Environment.

Pursuant to K.A.R. 60-11-121 an exempt license shall be granted only to an advanced practice nurse (NP, CNS, RNA or NMW) who meets these requirements:

- (1) Is not regularly engaged as an advanced practice registered nurse (NP, CNS, RNA or NMW) in Kansas, but volunteers advanced practice registered nurse or is a charitable health care provider, as defined by K.S.A. 75-6102 and amendments thereto: and

- (2) Has been licensed in Kansas for the five years previous to applying for an exempt license; or has been licensed, authorized, or certified in another jurisdiction for the five years previous to applying for an exempt license and meets all requirements for endorsement into Kansas.
- (3) The expiration date of the exempt license shall be in accordance with K.A. R. 60-3-108.
- (4) Each application for renewal of an exempt license shall be submitted upon a form furnished by the board and shall be accompanied by the fee in accordance with K.A.R. 60-11-119.
- (5) If you are a registered nurse anesthetist (RNA) or nurse midwife (MW) that is not currently practicing in the state of Kansas, have received a letter from the Health Care Stabilization Fund regarding the need for professional liability insurance, meet the requirements for exempt license, and are wanting to place your RNA or MW license into an exempt status please follow the below step.
 1. Go to www.ksbn.org and click on “forms”
 2. Print a “License Renewal Application”
 3. Complete all three (3) pages of the license renewal application and submit to the Kansas Board of Nursing along with the exempt renewal fee of \$50 (check or money order).

Kansas Automated Nurse Notification

Hospitals, educational institutions, nursing homes, staffing agencies, and others rely on the Kansas Board of Nursing (KSBN) for verification of employees' nursing license status. Previously the only option was verification on a license-by-license basis. But now, KSBN has a new automated service.

The KSBN Kansas Automated Nurse Notification (KANN) system allows employers and educational institutions to be proactive on license verification. Subscribers to the system will be notified when the status of a license changes, including renewals. The notification system has three tier pricing options.

All subscribers will be able to complete the following:

- Add/delete licensees from their tracking
- Upgrade subscription
- Sort Licensees by

 - License Number

Tier One

Annual subscription fee is dependent on number of licensees tracked (1-50 = \$150, 51-100 = \$250, 101-200 = \$300, 201-300 = \$350, more than 300 = \$400)

- Receive e-mail notices of any change to license status, including renewal periods
- Name of licensee
- License number
- License status – active or inactive
- Expiration date of license
- Original date of licensure
- Current Disciplinary Actions
- Send licensees e-mail reminders to renew

Tier Two

Annual Subscription Fee \$750

- IV Certification (LPN's only)

Tier Three
